

FERTILIZE THROUGH
YOUR SPRINKLERS

FertileEarth Profeeder™

THE FERTILE EARTH PROFEEDER

Now you can fertilize while you water with the Fertile Earth ProFeeder®; a revolutionary *fertigation* device from Fertile Earth Corporation. The Fertile Earth ProFeeder delivers small amounts of our extraordinary plant food to your entire landscape through your sprinkling system. The Fertile Earth ProFeeder takes the hassles out of fertilizing and produces better results than traditional methods of fertilization. It's simple to use, cost-effective and best of all, safe for use around children and pets. Fertilize the way professional growers do and get *better results with less water and chemicals.*

*New Siphon Cap
draws fertilizer directly
from a disposable bottle*

LIQUIDLIFE™ WITH BIONATRA™

Just attach a bottle of LiquidLife® PROFESSIONAL SERIES fertilizer directly to the ProFeeder and you will be fertilizing through your sprinklers. There is no pouring and no mess. And, our LiquidLife FORMULAS contain BIONATRA® (Bio NAY trah); an all-natural bio-stimulant that enhances the effects of the fertilizer ingredients in each formula. BioNatra stimulates deep root development and helps make nutrients already in the soil available to plants by promoting natural biological activity in the soil. BioNatra also contains trace amounts of micronutrients, vitamins, enzymes, complexed carbohydrates and amino acids not found in traditional fertilizers.

*13 different blends for almost
any soil type and climate.*
